

**Subject: Visit to Mansa on 17/7/2010**

**1. Sub Centre Malkon-**

- (1) The supply of Kit A and Kit B had been exhausted.
- (2) The poster regarding guaranteed facilities was missing. We had supplied 6 posters from the Head office.
- (3) ANM register was also in short supply.

**2. PHC Boha and Sub Centre Boha-**

- (1) Kit A and B were missing but there was another packets containing only Folic Acid Syrup. Civil Surgeon was asked to display the supply received and as to why the Kit was not supplied.
- (2) PHC Boha needs repair and one hall is full of condemned articles.

**3. PHC Bareta-** Some of the medicines were not being made available. There is now lot of improvement in deliveries.

**4. General-** It was brought to my notice that ANMs under head 2211 were being paid Rs. 6,000/- per month whereas the ANMs recruited under NRHM were being paid 6900/- . Why is there this disparity? We should redress it immediately.
